Bring your molecular PCR-based testing in-house.

Smarter Business. Better Medicine.

When a patient's health is on the line, diagnosing and treating an illness quickly and efficiently are of the utmost importance. But wait times for diagnostic lab results often delay treatment and result in poor patient outcomes. Stop waiting days for test results – bring your molecular PCR-based testing in-house with Molecular Lab Partners.

Set up an In-Office PCR lab.

- Design
- Licensing (CLIA/COLA)
- Installation
- Staffing (TS, MLT, GS, LD)

Molecular Lab Partners lets you diagnose and treat patients more efficiently by bringing your molecular diagnostics in-house. We provide turnkey solutions and hands-on consulting to guide you through the entire lab start-up process, including:

- Standard Operating Procedures
- Policies and Procedures
- Validation and Inspection
- On-site Training

PCR testing made simple and affordable.

With Molecular Lab Partners, you get everything you need for PCR testing in one place, including:

Turnkey solutions – We understand your needs and have everything you need to add a physician's office laboratory to your practice.

Lowest set-up costs – Including no-money-down financing options, no monthly management fee and no long-term commitment.

End-to-end implementation – Our process is streamlined to help your lab get up and running as quickly as possible.

Ready-to-run custom-plated assays – Our proprietary pre-filled wells and convenient break-away plates reduce human error and wastage, while maximizing workflow and profits.

Backend concierge support – Ongoing white-glove support to guide you through setup and operation, providing the assistance you need.

Stop giving away money by sending samples out for testing.

As an expert physician, you can be the one who profits from the lab testing you order, while also improving patient care. Adding high complexity molecular diagnostics as an ancillary service adds a brand new revenue stream to your practice. Bring your PCR testing in-house with turnkey solutions from Molecular Lab Partners.

Contact us today to learn more about how you can enhance patient care, and your bottom line, by keeping lab testing in-house.
